EDUCATION & RESEARCH

# American Academy of Oral and Maxillofacial Pathology

## ANNUAL MEETING & CONTINUING EDUCATION PROGRAM

April 16-20, 2005  
Destin, Florida

### PRESIDENT'S MESSAGE

Lewis Roy Eversole,  
DDS, MSD, MA

I know all of you  
have awaited  
this with bated  
breath!

The Oral and Maxillofacial  
Low Down Pathology Blues

Well I woke up the other mornin  
Had some coffee and drove to the lab  
I was feeling real good cause the dean  
Was outta town and I was glad

I sat down and turned on my scope  
My slides were stained pink and blue  
I was hopin beyond all hope  
At least one case would really be cool

So I threw the first slide on the stage  
A salivary tumor on my mind  
Sumthin even Auclair  
And Gary Ellis couldn't define

But mucocels cysts and fibromas  
Are all that fill my tray  
Even a giant cell granuloma  
Would have made my day

I've got those oral and maxillofacial  
Low Down Pathology Blues

Just waitin for a blue stained slide  
Dark with no pink anywhere  
Lots of pleomorphism  
Spindle cells here and there

A case that cries out for vimentin  
Keratin or CD 34  
Ah what a day for celebratin'  
But it aint happenin for shore

I wanna see some ghost cells  
A verrocay body would be neat  
Even some enamel matrix  
A granular cell would be a treat

But mucocels cysts and fibromas  
Are all that fill my tray  
Even a giant cell granuloma  
Would have made my day

I've got those oral and maxillofacial  
Low Down Pathology Blues

In the afternoon I went to clinic  
Hopin' to see a really cool case  
Pemphigus or bullous pemphigoid  
Or a big ulcer on somebody's face

But when I approached my patient  
She had tears in her eyes  
She said I got a tongue that's burnin  
I said I'm not really surprised

I gave her a glass of cold water  
Told her take an elavil  
Went ahead with a brush biopsy  
For this disease it works real well

Another case of LP  
Another burning tongue  
Another aphthous ulcer  
I'm just not havin no fun

I've got those oral and maxillofacial  
Low Down Pathology Blues

---

## ABOUT DESTIN AND THE SANDESTIN GOLF & BEACH RESORT

In our world, every day is better than the one before. The sand looks like sugar, the sea like emeralds and the sunsets like heaven. And what's outside is always better than what's on TV. Because in our world, things are different. Sandestin Golf and Beach Resort is like a world of its own. Some might even say a perfect world. Nestled on 2,400 acres of spectacular beach and bayfront, eight miles east of Destin.

Indulge in endless resort amenities from four championship golf courses - making it one of the top Florida golf resorts, 15 world-class tennis courts, full-service marina, water sports, charter sailing and fishing, boutique, designer and outlet shopping, fine and casual dining, state-of-the-art fitness center, professional salon and day spa and fun children's programs. Over 7 miles of beach and bayfront, make it the choice for those desiring the best of Florida beach resorts. Enjoy every imaginable convenience from resort-wide transportation and 24-hour guest services to a host of complimentary amenities free to you each day of your stay.

Sandestin Golf & Beach Resort  
9300 Emerald Coast Pkwy W  
Sandestin, FL 32550  
1-800-622-1038    <http://www.sandestin.com>

---

## GENERAL INFORMATION

### REGISTRATION

Individuals are encouraged to register by mail as soon as possible to avoid delays on-site. Registration forms postmarked on or after April 9, 2005 and individuals registering on-site will be charged an additional \$25.00 fee. A registration fee for spouses attending the meeting is being charged to offset a portion of the cost of the services which the academy provides them. You must register to attend any portion of the meeting. To register, fill out the registration form, (available on the website) attach your payment in U.S. funds to American Academy of Oral & Maxillofacial Pathology (AAOMP), and mail both to:

AAOMP  
214 N. Hale Street  
Wheaton, IL 60187 U.S.A.  
Toll Free: 888/552-2667 or 630/510-4552

Additional Office Information  
Fax: 630/510-4501, Email: [aaomp@b-online.com](mailto:aaomp@b-online.com)

### MICROSCOPES AVAILABLE

Microscopes will be available for slide review and informal consultations in the CCA/Speaker Ready Room.

---

## FLIGHT INFORMATION

### **Pensacola Regional Airport**

Pensacola - (PNS) 850-435-1746  
Travel time to Sandestin: 90 minutes  
Delta Airlines, Comair, Delta Connection,  
USAir Express, Continental Airlines,  
Northwest Airlinck

### **Destin Airport**

Destin/Miracle Strip Aviation, Inc. - 850-837-6135  
Travel time to Sandestin: 10 minutes  
Local Ground Operators:  
A-1 Resort Shuttle - 850-585-0619 or 800-642-6164  
Sandestin Tram - 850-267-8070  
Quality Transportation - 850-862-3214

### **Okaloosa Regional Airport**

Ft. Walton Beach - (VPS) 850-651-7160  
Travel time to Sandestin: 30 minutes  
Northwest Airlines, Atlantic Southeast Airline (ASA),  
Delta Connection, USAir Express, Airtran

### **Bay County International Airport**

Panama City - (PFN) 850-763-6751  
Travel time to Sandestin: 50 minutes  
Atlantic Southesat Airline (ASA), Delta Connection,  
Northwest Airlinck, USAIR Express

---

## DESTIN SCHEDULE

## 2005 CONTINUED COMPETENCY ASSURANCE PROGRAM (3 credits)

### Friday, April 15

9:00 am Executive Council Meeting

### Saturday, April 16

8:00 - 5:00 pm Fellowship Exam  
8:00 - 5:00 pm Fellowship Committee  
8:30 - 11:30 am CE #1 26th Annual AFIP Seminar  
1:00 - 5:00 pm Symposium

### Sunday, April 17

8:30 - 11:30 am CE #2 - Dr. Camisa  
CE #3 - Dr. Arendt/Bernstein  
CE #4 - Dr. Thompson  
2:00 - 5:00 pm CE #5 - Dr. Sudbo  
CE #6 - Dr. Gnepp  
CE #7 - Dr. Rees  
6:00 - 7:30 pm Welcome Reception

### Monday, April 18

7:00 - 8:00 am Editor's Breakfast  
7:00 - 8:00 am Iowa Breakfast  
7:00 - 8:00 am Navy Breakfast  
8:00 - 12:30 pm Essay I  
12:00 - 1:00 pm Program Director's Lunch  
12:30 - 1:30 pm Army & Air Force Luncheons  
2:00 - 5:00 pm Fellows' Business Meeting  
3:00 - 4:30 pm Spouses' Reception  
5:00 - 6:30 pm Indiana Reception  
5:30 - 7:00 pm Canadian Reception  
6:00 - 7:30 pm Emory Reception  
9:00 - 10:30 pm Residents' Reception

### Tuesday, April 19

7:00 - 8:00 am Education Committee Breakfast  
8:00 - 11:30 am Founder's Memorial Seminar  
11:30 - 1:00 pm Past President's Lunch  
1:00 - 5:30 pm Essay II  
6:00 - 9:00 pm President's Reception & Banquet

### Wednesday, April 20

9:00 - 11:00 am Clinical Pathology Conference

The Academy is once again sponsoring a Continued Competency Assurance program (CCA). The registration fee for members is \$50 and \$65 for non-members should be included with your registration form. In the past, the CCA was available for Diplomates only, but on a trial basis, it will be offered to all AAOMP members at the Destin meeting in 2005.

The AAOMP CCA is in a self-assessment format. Upon arriving at the meeting, participants should pick up their CCA packet from the registration desk. Each packet will contain self-assessment questions relevant to the CCA materials provided at the meeting along with an AAOMP CCA Participation Document.

The CCA cases will be available for review in the microscope room. See the Schedule at a Glance for times and location. The cases are individually packaged with appropriate histories, clinical photographs, radiographs and glass slides. Each of the 20 cases should be reviewed individually and completely and returned to their container. Upon completion of the CCA, each registrant should return the Participation Document to the registration desk. At that time, the diagnoses, discussion and references will be supplied for all cases presented.

The American Board of Oral and Maxillofacial Pathology will be provided with the list of completed participants.

### ABSTRACTS

Abstracts are available to review on the website at [www.aaomp.org](http://www.aaomp.org)

If you need a hard copy, please contact the office.

---

## MEETING PROGRAM AND SCHEDULE

### *Friday, April 15, 2005*

9:00 am

Executive Council Meeting

### *Saturday, April 16, 2005*

8:00 am - 5:00 pm

Fellowship Examination and  
Fellowship Committee Meeting

8:30 am -11:30 am

**CE Program #1 (3 credits)**

26th Annual AFIP Seminar

Robert D. Foss, CAPT, DC, USN  
Stephen B. Williams, COL, DC, USA  
Christopher G. Fielding, LTCOL, DC, USA  
David L. Wells, Lt Col, DC, USAF  
Jose E. Colon, DDS

Ten challenging surgical pathology cases will be presented. The AFIP diagnosis for each will be offered and discussed in the context of the attendees' diagnoses.

The Armed Forces Institute of Pathology, in conjunction with the American Registry of Pathology, is an international reference center for pathology. An act of the United States Congress authorizes this Department of Defense agency and its 23 departments to render consultative opinions on challenging and interesting cases from military, federal and civilian pathologists worldwide. The Department of Oral and Maxillofacial Pathology maintains over 60,000 cases in the Registry of Oral and Maxillofacial Pathology. The staff of the department will present atypical, unusual or uncommon lesions from the head and neck region that have been accessioned through the registry. Emphasis will be placed on the histopathologic differential diagnosis, adjunctive special laboratory studies and the rationale used to arrive at a final diagnosis. Prior to the meeting, the first 50 registrants will receive glass slides of the cases to be presented; these slides need not be returned. However, these 50 attendees are strongly encouraged to submit their diagnoses for the cases. Diagnoses will be used as a framework to help guide the discussion. All attendees will re-

ceive a handout containing histories, diagnoses, discussion and references. A CD that contains the handout material as well as a number of representative images of each case is available for purchase following the meeting.

*Objectives:*

1. To Present rare, unusual, or challenging cases from the Registry of Oral and Maxillofacial Pathology.
2. To discuss the development of a clinical and histopathologic differential diagnosis.
3. To provide the rationale for the use and application of adjunctive histopathologic, immunohistochemical and molecular studies in challenging diagnostic scenarios.

1:00 pm -5:00 pm

**Symposium (4 credits)**

**Emily Hill, PA**

- 1 - "Appropriate Coding for Compliance and Reimbursement"

**Alan R. Gould, DDS, MS**

- 2 - "Academics to Private Practice: The Experience of an Oral and Maxillofacial Pathologist"

**Janice Handlers, DDS**

- 3 - "Running a Successful Oral Pathology Practice"

1 - It is a fact of life in healthcare today that practices must assign codes and document care in order to ensure appropriate reimbursement and reduce audit liability. This course will review the CPT and ICD coding guidelines for common clinical examinations and treatment. Proper coding and documentation for Evaluation and Management Services and commonly performed procedures and services will be addressed. Case examples will be used to help apply the guidelines to clinical practice. An opportunity for Q & A will be included.

*Objectives:*

Upon completion of the presentation, the participation will be able to:

1. Understand the relationship between ICD and CPT coding as it relates to reimbursement
2. Code appropriately for clinical examinations and other services on the same day
3. Select the appropriate category of Evaluation and Management Services
4. Identify the distinctions between the levels of Evaluation and Management codes.

---

2 - Dr. Gould will discuss his experiences in transition from full-time academics to private practice. The course will explore issues including motivations and hindrances to major mid-career change, identification of professional and personal resources, development of a business model appropriate to personal professional practice interests and local market conditions, design and implementation of marketing strategy, goal setting and patience, business management tasks and responsibilities, and design and execution of an effective communications system.

*Objectives:*

Participants completing this course will have an increased appreciation:

1. Factors which may contribute to a decision to leave academics for private practice
2. Resources which are helpful in entering private practice in oral and maxillofacial pathology
3. Alignment of personal practice interests with existent health care markets
4. Clinical and laboratory private practice synergies
5. Marketing strategies and mechanisms for promotion of private practice
6. Business planning, goal setting, and the challenge of maintaining a valid perspective
7. The business of private practice
8. Communications: systems and tracking

***Sunday, April 17, 2005***

8:30 am -11:30 am

**CE Program #2 (3 credits)**

Charles Camisa, MD

“Oral Dermatology for the Clinician”

There is a significant amount of overlap between the fields of dermatology and oral medicine. The course will attempt to bridge the gap by clearly demonstrating the clinical features of dermatoses, which occur with and without oral manifestations. The focus will be on using clinical clues in the differential diagnosis.

**The course will be divided into three segments:**

1. Common dermatoses and neoplasms of the head and neck region, including molluscum, herpes, impetigo, seborrheic dermatitis, nevi, actinic keratosis, basal cell and squamous cell carcinoma

2. A new pictorial self-assessment of pigmented skin lesions
3. Immunologically mediated diseases with both oral and skin manifestations: lichen planus, pemphigus, pemphigoid, and erythema multiforme spectrum.

*Objectives:*

1. To be able to recognize the top 12 common dermatoses and neoplasms of the head and neck region
2. To be able to formulate a differential diagnosis of immunobullous diseases
3. To discuss the variety of medical and surgical treatments available for common dermatoses, neoplasms, and immunobullous diseases.

8:30 am -11:30 am

**CE Program #3 (3 credits)**

Douglas M. Arendt, DDS, MS

Mark L. Bernstein, DDS

“CSI for the Forensic Odontologist”

**Module 3: Historical and High Visibility Forensic Files**

This module will review a number of historical and contemporary high visibility forensic cases. The focus will be to review the background, forensic evidence and clinical approach in order to develop conclusions. The cases will include missing and unidentified and suspicious deaths where there is clinical evidence of pattern injuries and or other clinical stigmata.

*Objectives:*

1. Understand the limitations as well as the advances the Odontologist employs in the medical legal arena
2. Learn clinical stigmata that may be present subsequent to suspicious deaths and how to develop an outcome measures for use as an expert witness
3. Gain historical perspective of some of the cases that made it into the press.

---

8:30 am -11:30 am

**CE Program #4 (3 credits)**

Lester D.R. Thompson, MD

“Sinonasal Trace Slide Seminar”

A series of 10 cases involving mucosa, soft tissue, and lymphoid tissue of the sinonasal tract and nasopharynx will be discussed. Although emphasis will be placed on a practical approach to this diverse group of lesions, pertinent clinical, immunohistochemical, and molecular/genetic features of diagnostic or prognostic significance will also be highlighted.

A glass slide set will be sent to each participant of this course. **These glass slides must be returned at the meeting site.**

*Objectives:*

On completion of this seminar, participants should be able to:

1. Recognize a variety of lesions of the sinonasal tract and nasopharynx, formulate a differential diagnosis, and identify important histologic criteria to separate them
2. Select and integrate immunohistochemical, molecular and/or genetic procedures that aid in diagnosis or have prognostic significance
3. Understand their clinical behavior and be able to communicate effectively with clinicians about their management.

2:00 pm -5:00 pm

**CE Program #5 (3 credits)**

Jon Sudbø, MD, DDS, PhD

“Prevention of Oral Cancer by Molecular Based Therapy of Aggressive Leukoplakia”

The multifaceted rationale for molecular-targeted prevention of oral cancer is strong. Oral cancer is a major global threat to public health, causing great morbidity and mortality rates that have not improved in decades. Oral cancer development is a tobacco-related multistep and multifocal process involving field carcinogenesis and intraepithelial clonal spread. Biomarkers of genomic instability, such as aneuploidy and allelic imbalance, can accurately measure the cancer risk of oral premalignant lesions, or intraepithelial neoplasia (IEN). Clinical management of oral IEN varies from watchful waiting to complete resection, although com-

plete resection does not prevent oral cancer in high-risk patients. New approaches, such as interventions with molecular-targeted agents and agent combinations in molecularly defined high-risk oral IEN patients, are urgently needed to reduce the devastating worldwide consequences of oral cancer.

*Objectives:*

1. To focus on our current understanding of the molecular basis of oral carcinogenesis
2. To give an update on new molecular diagnostic and risk-assessment approaches in oral intraepithelial neoplasia (IEN)
3. To give a brief review of standard treatment options and their limitations
4. To give an update on novel molecular-targeted approaches for preventing or delaying oral cancer and its devastating consequences in patients with molecularly defined high-risk oral IEN.

2:00 pm -5:00 pm

**CE Program #6 (3 credits)**

Douglas R. Gnepp, MD

“Salivary Gland Pathology: A Potpourri of Selected, Challenging and Unusual Lesions”

This workshop presents 10 examples of salivary gland pathology. Histologic variation, potential diagnostic pitfalls and differential diagnosis of unusual variations of common lesions as well as recently described entities will be emphasized. Immunocytochemistry and electron microscopy will be used to supplement selected cases. Several cases will serve as a point of departure for a broader discussion of related topics. Audience participation is encouraged.

This course is designed for residents and oral pathologists who would like an in depth review of challenging salivary gland pathology. Digital images of the entire H&E slide from each case will be available for participants to review before the conference (kindly provided by Bacus Laboratories, Inc.). In addition, a detailed handout will be provided.

*Objectives:*

1. Recognize unusual histologic variations of more common salivary gland tumors
2. Be more familiar with recently characterized salivary gland tumors.

2:00 pm -5:00 pm

**CE Program #7 (3 credits)**

Terry D. Rees, DDS, MSD

“Controversies in Oral Medicine”

In recent years numerous controversial issues have arisen regarding the recognition, diagnosis and management of some oral mucosal diseases and disorders. Although evidence based data is still lacking regarding several of these conditions, a growing amount of information suggests that these issues can be resolved to a reasonable degree and that patients can be successfully managed. In this seminar we will discuss the diagnosis and management of oral contact allergic reactions, drug induced mucosal diseases, a variety of mucocutaneous diseases, xerostomia and burning mouth syndrome. The discussion will be based in part on data accumulated in the Stomatology Center at Baylor College of Dentistry.

*Objectives:*

1. A working knowledge of diagnostic methods useful in identifying specific mucosal diseases
2. An understanding of the possible relationship between mucosal diseases, underlying systemic diseases and the potential for malignant transformation
3. Ability to successfully manage oral health in affected individuals.

6:00 - 7:30 pm

Welcome Reception

***Monday, April 18, 2005***

7:00 - 8:00 am

Editor's Breakfast

Iowa Breakfast

Navy Breakfast

8:00 - 12:30 pm

**Essay I (4.5 credits)**

12:00 - 1:00 pm

Program Director's Lunch

12:30 - 1:30 pm

Army & Air Force Luncheons

2:00 - 5:00 pm

Fellows' Business Meeting

3:00 - 4:30 pm

Spouses' Reception

5:00 - 6:30 pm

Indiana Reception

6:00 - 7:30 pm

Emory Reception

9:00 - 10:30 pm

Resident's Reception

***Tuesday, April 19, 2005***

7:00 - 8:00 am

Education Committee Breakfast

8:00 am - 11:30 am

**Founders Memorial Seminar (4 credits)**

Dennis M. Frisman, MD, FCAP

“ImmunoQuery- Evidence-based Method in the Immunohistochemical Diagnosis of Tumors with presentation of cases”

Currently, no easy way exists to determine the best panel of immunostains that will aid in the differential diagnosis of tumors, especially with the commercial explosion of available antibody reagents. To meet this need, I have developed an immunohistochemistry database query system that will:

**PLEASE NOTE  
AAOMP new office address**

214 N. Hale Street  
Wheaton, IL 60187

Local Phone: 630-510-4552

Toll-Free: 888-552-2667

Fax: 630-510-4501

1. list the antibodies that can differentiate between tumors entered by the user,
2. rank the antibodies in terms of their ability to differentiate between the tumors, and
3. provide instant references to journal articles describing the reactivity of these antibodies. The query system provides a meta-analysis of the literature by utilizing a database developed over several years. This course will discuss the use of this method in the differential diagnosis of tumors with emphasis on oral and ENT tumors.

*Objectives:*

1. Provide the pathologist with an evidence-based pathology method in the selection of immunohistochemical stains in the differential diagnosis of tumors
2. Enable the pathologist to assure the appropriateness and cost effectiveness of the use of immunohistochemistry
3. Provide the pathologist with the background in the development and administration of a database system for the utilization of immunohistochemistry.

**Wednesday, April 20, 2005**

9:00 - 11:00 am

**Clinical Pathology Conference (2 credits)**

**CPC Answers from 2004 Charleston Meeting**

Case # 1 - Embryonal rhabdomyosarcoma

Case # 2 - peripheral (extraosseous) ameloblastoma

Case # 3 - secondary syphilis (mucous patch)

Case # 4 - central (intraosseous) mucocystic carcinoma

Case # 5 - scurvy (scorbutic gingivitis)

Please help the Academy and list a possible Sponsor (contact name and phone number) to help defray costs of the meeting: \_\_\_\_\_

\_\_\_\_\_

**Late fees:** A \$25 late or on-site fee will be added for registrations made after April 16, 2005. **Refund policy:** The fee, less a \$50 administration cost, will be refunded if the AAOMP office is notified in writing of the cancellation prior to April 9, 2005. After that date, no refunds will be issued. **Your payment must accompany this form.** Please make all checks payable in U.S. funds to the *American Academy of Oral & Maxillofacial Pathology (AAOMP)* and mail or fax the registration form and payment to **NEW ADDRESS:**

AAOMP  
214 N. Hale Street  
Wheaton, IL 60187 USA

Phone: 888/552-2667 or 630/510-4552  
Fax: 630/510-4501  
Email: aaomp@b-online.com

The AAOMP wishes to take those steps that are required to ensure that no individual with a disability is excluded, denied services, segregated, or otherwise treated differently than other individuals because of the absence of auxiliary aids or services. If you need any of these services identified in the American with Disabilities Act, please contact the AAOMP office. Thank you and see you in Charleston! **Please keep a copy of this form for your files.**

TYPE ABSTRACT HERE: SINGLE SPACE IN *TIMES ROMAN* - SIZE 12 FONT, THROUGHOUT  
AND FOLLOW MARGINS USING A *MAXIMUM OF 19 LINES*  
THIS FORM MUST NOT BE FOLDED

Annual Meeting, American Academy of Oral and Maxillofacial Pathology, Destin, Florida, April 16-20, 2005.  
Correspondence concerning this abstract should be addressed to:

---

NAME OF PERSON WHO WILL PRESENT PAPER: \_\_\_\_\_

**IMPORTANT!**

All abstracts will be published on the AAOMP website. During the two scientific sessions at the annual meeting, a limited number of papers will be presented formally and the remainder will be Read-By-Title. The Program Committee will determine the presentation format for each paper and notify the authors accordingly. To help with the process, please indicate your preference by checking the appropriate category below. However, because of time constraints, it may not be possible to accommodate all requests for formal presentation. NOTE: All formal papers MUST be presented in a digital format (PowerPoint) using the Academy's LCD projector and computer; no slide presentations will be allowed. You are required to disclose if you are using any computer generated images that have been edited in any way to alter their appearance.

\_\_\_\_\_ Formal Presentation                      \_\_\_\_\_ Read-By-Title

FOR RESIDENTS: I am the primary researcher, will present the essay personally, and would like to be judged for the Robert J. Gorlin Resident's Essay Award: \_\_\_\_\_ Yes    \_\_\_\_\_ No    \_\_\_\_\_ Initials

Abstracts will appear in the final program exactly as submitted. Selected abstracts from the scientific sessions will be published in *OOOOE*. Therefore, the abstract must include objective(s), findings, and conclusions. In addition, the material presented should not have been published previously.

**INSTRUCTIONS** (See example)

**TITLE:** Capitalize entire title

**AUTHORS:** First initials and last names only. Omit degrees and titles. Underline authors' names.

**ADDRESSES:** Name of Institution (U. for University) and city. Include state only if not given in name of institution.

**BODY OF ABSTRACT:** Single space using Times Roman font, size 12, maximum of 19 lines, do not change font, and follow the margins exactly. DO NOT USE A COPY OF THIS FORM FOR ORIGINAL TYPING.

**EXAMPLE**

**DERMATOGLYPHIC NOMOGRAM FOR THE DIAGNOSIS OF DOWN'S SYNDROME. T. Reed, P. Conneally, P. Yu, W. Nance, J. Christian, and D. Borgaonkar.** Indiana U. Indianapolis, and Johns Hopkins U., Baltimore Maryland. In order to develop a simple and clinically useful diagnostic index for D.S. (mongolism), .....

**DEADLINES FOR ABSTRACTS**

January 31, 2005. Email abstract as a word document to AAOMP Essay Chairman, Dr. Brad Neville, at [nevilleb@musc.edu](mailto:nevilleb@musc.edu) or mail to: AAOMP Essay Chairman, Dr. Brad Neville, College of Dental Medicine, Oral Pathology, Medical University of South Carolina, PO Box 250507, Charleston, South Carolina 29425.

## Survey Results

Listed below are the results of the survey sent out a few months ago. This was regarding that Dr. Craig Miller, Immediate Past President of the American Academy of Oral Medicine sent a letter to Dr. Allen and Dr. Roy Eversole this past year requesting that we, as an Academy, consider stronger interaction with AAOM.

Responded: 110 - Fellow 18 - Member

1. I favor an informal relationship with AAOM such as periodic joint meetings and educational programs.  
35-Strongly agree 64-Agree 16-Don't care 14-Disagree 9-Strongly disagree
2. I favor a formal relationship with AAOM whereby the two organizations merge with a single Board  
12-Strongly agree 10-Agree 7-Don't care 34-Disagree 71-Strongly disagree
3. I favor merging the two organizations formally as a joint specialty with two separate Boards  
32-Strongly agree 21-Agree 13-Don't care 28-Disagree 43-Strongly disagree
4. I favor remaining separate from AAOM entirely; leave things as they are.  
26-Strongly agree 25-Agree 15-Don't care 37-Disagree 36-Strongly disagree
5. I would prefer to remain separate from AAOM but would be in favor of having the AAOMP officially support AAOM's application for ADA specialty recognition.  
6-Strongly agree 20-Agree 15-Don't care 42-Disagree 52-Strongly disagree
6. I would support an informal relationship with AAOM and would be in favor of having the AAOMP officially support AAOM's application for ADA specialty recognition.  
11-Strongly agree 24-Agree 17-Don't care 39-Disagree 42-Strongly disagree
7. If "grandfathered in" as a diplomate of the American Board of Oral Medicine, I would be in favor of an informal relationship with AAOM and would be in favor of having the AAOMP officially support AAOM's application for ADA specialty recognition.  
12-Strongly agree 24-Agree 15-Don't care 36-Disagree 43-Strongly disagree
8. If "grandfathered in" as a diplomate of the American Board of Oral Medicine, I would be in favor of a formal relationship with AAOM merging the two, with two separate boards.  
34-Strongly agree 18-Agree 15-Don't care 32-Disagree 35-Strongly disagree
